

## Datasheet

### R125USB, R1356USB - Cards Enrollment USB Stick

#### Product Description

This card enrollment device makes it quick and convenient to register credentials in the ATRIUM or CENTAUR software. These units are automatically detected once connected to a PC. Simply present the credential to the USB stick and the number is directly added to the card properties in the the software.

CDVI offers two models, the R125USB for 125 kHz credentials and the R1356USB for MIFARE Classic (13.56 MHz) credentials. Simply present the credential to the USB key and the number is directly added to the card properties in the the software.

#### Key Features

- R125USB: Reads CDVI 125 kHz credentials  
R1356USB: Reads MIFARE® Classic 13.56 MHz credentials
- Compatible with ATRIUM and CENTAUR software
- USB port connection
- No additional driver required
- Device detection

R125USB

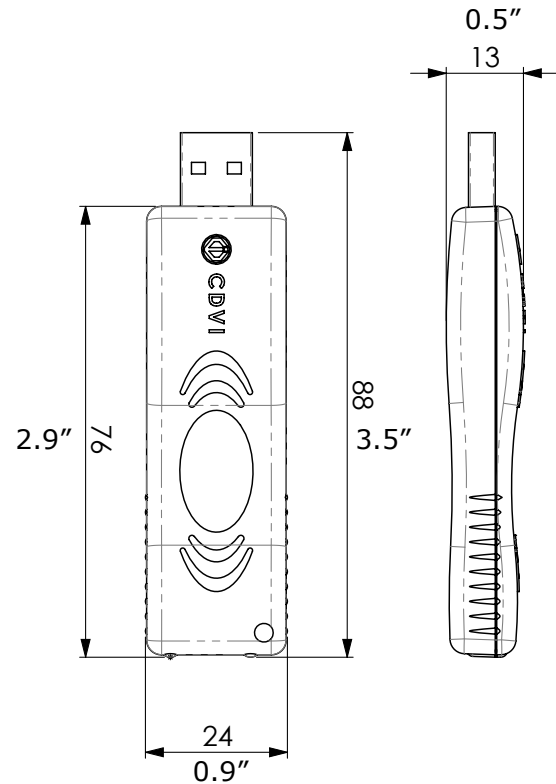

R1356USB

## Product Specifications

<b>Material:</b>	Polycarbonate
<b>Mounting:</b>	Desktop
<b>Technology:</b>	125 kHz / 13.56 MHz (as per model)
<b>Security level:</b>	Standard
<b>Protocol:</b>	26, 30, 32 or 44 bits
<b>Weight:</b>	0.7 oz, 20 g

## Electrical Specifications

<b>Power input:</b>	USB 5 V
<b>Consumption:</b>	50 mA

## Accessories

**ISO25**  
Printable ISO Card

**KTAG**  
Black Key Ring Tag 125 kHz

**TAGM**  
MIFARE® Classic Tag
